

To the Administrator of the Baptist Home,

I have been hearing great things about your facility in the newspaper and the television. I am very impressed with your nursing home. When I hear of the different activities you do there I just can't believe it! Now this is how a nursing home should be. I have been in several nursing homes and have never ever heard of so many interesting things - different things - it really seems like you try to have a little something for everyone. Your staff should be commended.

I have been in the Baptist Home a few times. It seems that most of the staff are very friendly and are there not just for a paycheck but because they really, really care.

Please keep up the good work. Your staff is going the extra mile and it shows. I am especially happy for the residents that live there!

Great Job Baptist Home.

Sincerely,

An observant member of the Bismarck community
